

Boardic S-box

Our plastic clip box is a small plywood box assembled with loose plastic clips for increased flexibility in small production runs. The box has been tested and approved by Innventia and tested over several years in the export flow. The plastic clips are produced from partially recycled polyamide. Approved to ISPM15 for export.

SPECIFICATIONS

- 9 mm birch plywood MR glued (moisture resistant)
- Quick assembly
- Reduces storage space for empty packing
- Approx. 50 % less volume/area
- Several standard sizes

Takes up very little storage space.

Quick and easy to assemble with plastic clips.
