

Boardic Filmfaced Combi

We stock formwork plywood in combi-quality birch/poplar, edge sealed with a 120 g phenolic film on both sides. The following sizes are available for immediate delivery from our warehouse in Norrköping. Of course we can also cut boards to size to meet your requirements.

OUR STANDARD SIZES

- 1200x2500x9 mm
- 1200x2500x12 mm
- 1200x2500x15 mm
- 1200x2500x18 mm

EXPLANATIONS

Coating

The surface is coated with heat pressed, smooth phenolic film, dark brown. The film consists of a paper frame impregnated with phenolic resin. Film with a weight of 120 g / m² is normally used. Edge sealed.

Gluing

WBP = Dark glue line, weather & boil proof.

We can cut most boards and sizes on our saw lines.
